

Around the Table Games

We recently had the opportunity to try an amazing game called "[Family Talk](#)". I have been hearing about this game for awhile now and was just tickled beyond belief to be able to share this with my family. Our whole family hardly ever gets to sit down together and eat (Dad works late most nights) but when we do sit down to enjoy a meal most of the time we are just tired and exhausted from the day's activities that we just SIT AND EAT (Nothing else).

Family Talk has changed that completely and we LOVE IT! You see Family talk is a game designed to get the family talking. All you do is flip over a card and discuss the topic with everyone. It is so fun and rather interesting to hear everyone's responses. We have gotten so wrapped up in the questions and TALKING with each other that we hardly ever want to leave the table.

Visit [Around the Table Games](#) and take a peak at all the wonderful games they have to offer. I am sure there is something there that is just perfect for your family!
