

Great New Games from Continuum Games!

New packaging for 2011!

Exact Change® combines an excellent teaching lesson with fun, fast paced action that the entire family will enjoy. The goal is to play all of your cards first. You can play a card by matching the currency value (play a penny on a penny), by matching the color of the last card played, or by making EXACT CHANGE. Making exact change allows you to discard **multiple** cards that add up to the value of the last card played. If the last card played shows a quarter, you can make exact change by playing two dimes and a nickel...allowing you to discard three cards in one play!

Players then have one minute to write as many answers as they can think of. Once time is up, each player reads out their answers. If someone else has the same answer, you cross it off. If your answers are unique, you score points. Infinitum is a game that encourages interaction, individual insights and lots of laughter.
