Around the Table Games: Fun for the Family {Giveaway}

Around the Table Games is a company that was designed by an occupational [therapist](#). They provide all different [games that can encourage kids to talk on many different levels](#). Family Talk 2 and Buddy Talk are the ones that I reviewed. Each game has 50 cards placed on a convenient key ring. This exciting game can be taken anywhere! Family Talk would be a superb game for family parties or reunions! Family Talk asks the following questions: What is your favorite thing to do in the summer? Is it ever okay to lie? Name all of

the pets you have ever had? Buddy Talk asks the following: "What sports do you play? What is your favorite song?" This company has won many awards including the 2008 iParenting Media Outstanding Product Award and Creative Child Magazine's "Game of the Year." You'll love most the non-stop conversation with family and friends! Around the Table games are definately a Cool Baby Kid recommended activity.
