## **Giveaway: Family talk, portable conversation games**

Here's a way to make your summer roadtrips memorable: start the conversations with thought-provoking, easy-to-play [Around the Table](#) games.

The fun, portable conversation games keep today's busy families connected. Simply pick a card, ask the question and get an insightful-often hilarious-glimpse into the people you assumed you already knew. The games help make the most of family togetherness time.

In Family Talk, questions are as simple as, "What is your favorite color?" or can get as detailed as, "What is one of the most important things your parents taught you?"

This week, one SouthernMamas reader has the chance to win two [Around the Table games](#), one of the Family Talk series (Family Talk, Grandparent Talk and Family Talk2) and one from the kids & teens series.
