Around the Table Games

The concept behind Around the Table Games is colorful conversations between parents, children, and relatives of all ages. To enhance communication among family members, Around the Table Games released multiple versions of its card game Family Talk, including Family Talk 2 and Grandparent Talk. For ages 4 and up, questions range from “What was your favorite stuffed animal?” to “What kind of pets did you have?” Each deck of 100 cards is attached to a carabiner clip for clipping to a backpack, purse, or picnic basket.
